## Profile

Calvin is a craftsman and designer building experience for an emerging internet, looking to collaborate with audacious teams shaping the future with their products.

## Experience

### Founding Product Designer [Tenfold](#) 2023

- Researched and presented design opportunities to leadership, including a reputation and annotation system, a futures market, and social graph functions.
- Conducted rapid prototyping sprints to validate initial product direction.
- Led the hiring of a brand designer.

### Full Stack Designer [Commonwealth](#) 2022 — 2023

- Co-led design of a zero-knowledge multi-chain bridge, network statistics page, and marketing site.
- Spearheaded creation of a design system used across all three applications.

### Product Designer [Xalgorithms Foundation](#) 2020 — 2022

- Led user experience design of novel rule authoring application, resulting in creation of prototypes and production-class application.
- Co-led design of decentralized community engagement platform, improving contribution process for 20+ contributors across 5+ countries.

### Freelance Creative Technologist [Selman Design](#) 2020

- Led development of educational website celebrating women in tech.
- Contributed to development of interactive music video.

### Freelance Product Designer [XXIX](#) 2020

- Crafted mobile wireframes and contributed to creation of high-fidelity screens of webapp for major healthcare client.

### Product Design Intern [BitClaims](#) 2018

- Co-created wireframes, high fidelity mockups, and clickable prototypes.
- Contributed to the creation and facilitation of design workshops to develop product vision and strategy

### Visual Design Intern [Reboot](#) 2018

- Contributed to co-design sessions, interviews and research and transformed insights into visual solution.
